IAMTech

EXPERIENCE NOT THEORY.

BESPOKE SOFTWARE

Custom Software Tailored to Your Operations

—

Unlike off-the-shelf platforms, our custom-built software is designed around your exact workflows and business goals, from concept through to code. Whether it's legacy system modernisation, digital transformation, or new platform development, we can turn your vision into a business-ready solution.

—

READY TO BUILD?

WHY CHOOSE IAMTECH?

- ✓ Over two decades of experience and proven success developing software across multiple high-hazard sectors. Our solutions are built with safety, compliance, and operational efficiency at the core.

- ✓ **Integration of AI and Advanced Technologies:** IAMTech effectively integrates cutting-edge technologies like Artificial Intelligence (AI) and Large Language Models (LLMs) to enhance software capabilities and provide superior, intelligent solutions.

- ✓ **Full Project Transparency:** End-to-end clarity — from initial discovery to deployment, we maintain transparent processes, fixed-fee pricing models, and auditable development workflows using agile methodology.

- ✓ **Advanced Cybersecurity Compliance:** Security by design — we implement rigorous security protocols aligned with and exceeding ISO27001, OWASP Top 10, and GDPR standards to protect sensitive data and system integrity.

- ✓ **Process-Driven Collaboration:** We don't just build software — we work with you to refine requirements, validate ideas through prototyping, and deliver outcomes through agile sprints.

BUILT FOR YOUR BUSINESS

Our personalised approach means you get software that fits your business — not the other way around.

With proven success across industrial operations, emergency services, and asset-intensive sectors, IAMTech is your trusted development partner for secure, scalable and future-ready solutions.

WORLDWIDE COVERAGE, COLLECTIVE INSIGHT

Serving customers in 27 countries throughout the globe, with IAMTech you benefit not only from our own experience, knowledge and investment, but also those of our global community of software users.

CUSTOM WEB & MOBILE APPLICATIONS

We build intuitive web portals, native apps, and progressive web applications to meet the needs of your team and your customers.

OUR PROVEN PROCESS

✔ **Requirements Gathering & Analysis:**
Detailed exploration of your business needs to develop precise functional and non-functional requirements.

✔ **Solution Design & Prototyping:**
Collaborative design and prototyping phase to validate feasibility, particularly for technologically complex requirements.

✔ **Agile Development:**
Iterative development cycles ensuring continuous feedback and refinement.

✔ **Testing & Validation:**
Rigorous testing processes to meet your operational demands and ensure robust software performance.

✔ **Implementation & Deployment:**
Full support through deployment, training, and integration into your existing workflows.

✔ **Continuous Support & Evolution:**
Post-implementation support and evolution to maintain relevance and high performance.

BESPOKE SOFTWARE KEY CAPABILITIES:

IAMTech's bespoke software solutions are designed not just to meet your needs today — but to power your growth tomorrow.

From systems automation, through to using AI for predictive analytics and compliance control, we can deliver you tailored systems that integrate seamlessly, improve efficiency, and unlock competitive advantage.

ENTERPRISE-GRADE SCALABILITY

Our software handles anything from small team deployments to millions of users, with architecture designed for high availability, responsiveness, and rapid growth.

ADVANCED CYBERSECURITY COMPLIANCE

Security is built in from day one — we adhere to ISO27001, OWASP Top 10, and GDPR standards to ensure your systems and data are protected at every level.

THIRD-PARTY SYSTEM INTEGRATION

Smooth integration capabilities to ensure compatibility with your existing ERP, EAM, or legacy systems.

FULL IP OWNERSHIP

Every line of code we write for you is yours. You retain full intellectual property rights, giving you the freedom to maintain, modify, or commercialise as needed.

AI-ENHANCED DEVELOPMENT

From AI integration in customer platforms to use of LLMs in development, we apply the latest technologies to create smarter solutions.

REAL-TIME COLLABORATION AND SYNCHRONISATION

Solutions built for environments where real-time data synchronisation and offline capabilities are critical.

SPECIALISED MATHEMATICAL AND SCIENTIFIC MODELLING

Complex solutions incorporating advanced mathematical modelling, dispersion calculators, and predictive analytics for industryspecific scenarios.

COMPREHENSIVE AUDIT AND COMPLIANCE MANAGEMENT

Digital records for audit trails and regulatory compliance, enhancing transparency and accountability in critical operations.
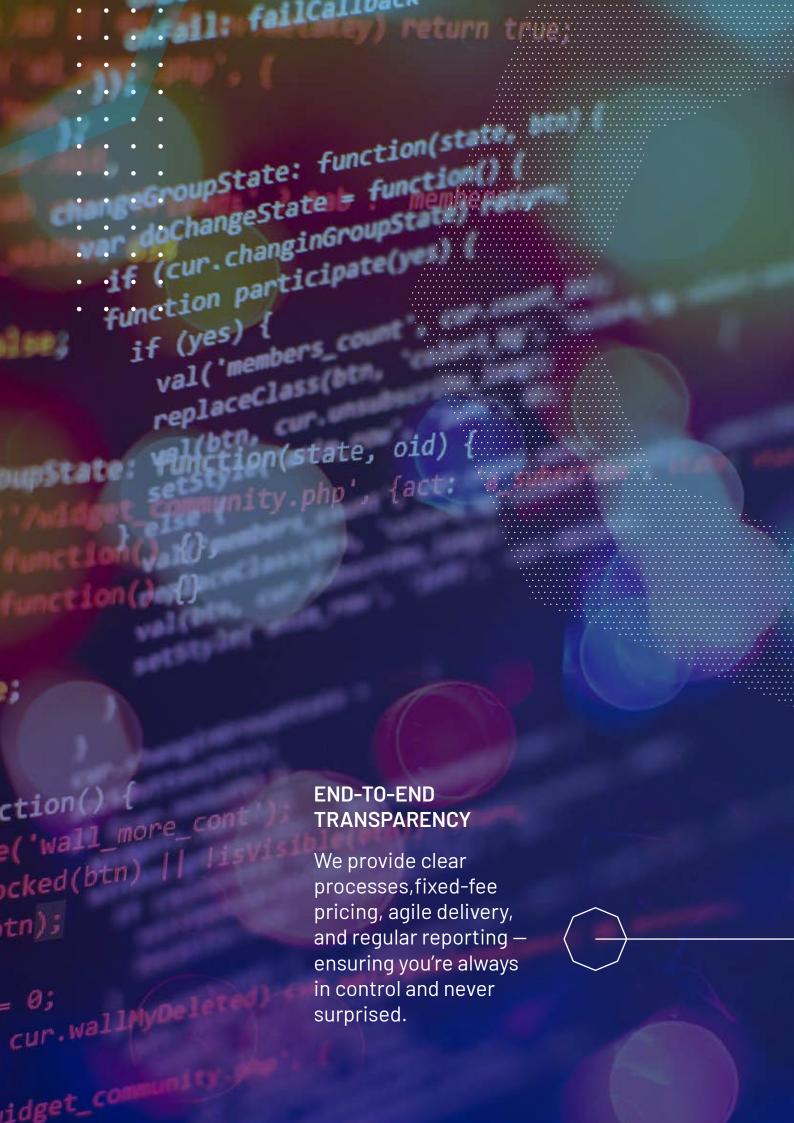

LEGACY SYSTEM DEVELOPMENT

Connect or upgrade outdated platforms with minimal disruption to business operations.

DEEP INDUSTRIAL DOMAIN EXPERTISE

Decades of experience in oil & gas, manufacturing, emergency response, and heavy industry.

BESPOKE DATABASES & DASHBOARDS

Structured, secure data architecture with user-specific views and real-time reporting.

END-TO-END TRANSPARENCY

We provide clear processes, fixed-fee pricing, agile delivery, and regular reporting – ensuring you're always in control and never surprised.

ABOUT IAMTech

Cleveland Process Designs, trading as IAMTech, has a rich history dating back to 1973. From our humble beginning as industrial plant model makers, we've come a long way in the past 50 years. Today, IAMTech proudly stands as a global frontrunner in the development of innovative industrial software. Serving customers in 27 countries throughout the globe, with IAMTech you benefit not only from our own experience, knowledge, and investment, but also those of our global community of software users.

> IAMTech turned a complex scientific modelling challenge into an accessible, user-friendly application that our teams could actually use in realworld scenarios. The iResponse tool helps us visualise and plan for worst-case events with speed and accuracy — it's become an essential part of our emergency preparedness strategy.
>
> OilTanking

> IAMTech delivered a flexible and powerful auditing platform that supported our global insurance and safety assessments. Their ability to translate complex requirements into a user-friendly system helped us standardise our audits, improve consistency across sites, and connect risk scoring directly to financial impact.
>
> BP Pluto

> "IAMTech delivered exactly what we needed — a reliable, intuitive platform that works under real emergency conditions. Their team understood the pressures of front-line response and built a system that gives incident commanders real-time visibility and control, even offline. The result is a powerful, audit-ready tool that's now a critical part of our operational response framework."
>
> Command Solutions

We are constantly striving to enhance and develop our products – we don't believe in standing still.

MULTI AWARD WINNING SOFTWARE COMPANY

TEES TECH BUSINESS LEADER OF THE YEAR **FINALIST 2024**

NEPIC SME BUSINESS OF THE YEAR **WINNER 2024**

BUSINESS AWARDS UK SME BUSINESS OF THE YEAR **FINALIST 2024**

BUSINESS AWARDS UK TECH BUSINESS OF THE YEAR **WINNER 2024**
